

Label Cutter LC

The label cutting device cuts the label directly from the roll and feeds it precisely positioned to the further packaging process. The system is characterised by a high degree of variability and can therefore be designed to meet the different customer requirements.

Technical data:

| | |
|----------------------|---|
| Output range | max. 120 products/min |
| Label width | 30 – 275 mm |
| Product thickness | on request |
| Product features | on request |
| Positioning accuracy | +/- 1 mm (application-oriented +/- 0.1 mm) |
| Format settings | reproducible mechanically adjustable |
| Product infeed | controlled label unwinding system |
| Controller | freely parameterisable, recipe management |
| Operation / HMI | HMI 8.4" colour touch screen pushbutton on HMI HMI 280° rotatable |
| Indicator lights | green, orange, red (standard) |
| Power connection | 13AT / 230V / 50/60 Hz / LNPE |
| Power requirement | on request |
| Drive | servo drive low noise |
| Material | anodised aluminium / stainless steel |
| Weight | project-specific |
| Weight | project-specific |
| Mounting options | project specific design |

Options:

| | |
|--------------------------|---|
| Printing system | project-specific printer solutions |
| Storage system | project-specific (direct, stacking device) |
| Product testing | integration of camera or code reading systems |
| Rejection station | product rejection, project-specific |
| Base frame | mobile and adjustable stand, various mounting options |
| Safety protective device | project specific design |
| Communication interface | I/O (standard) OPC-UA OPC-UA via Ethernet TCP/IP Industry 4.0 |
| Validation | project specific design |
| Special solutions | on request |
